PTNNT Discontinues and Withdraws Arbitration Claim in Anticipation of Formal MoU Negotiations with Indonesian Government

Jakarta, August 26, 2014 – Based on encouraging recent developments, PT Newmont Nusa Tenggara (PTNNT) announced today that the company and Nusa Tenggara Partnership BV (NTPBV), PTNNT’s majority shareholder, requested discontinuance and withdrawal of the arbitration claim filed with the International Centre for Settlement of Investment Disputes (ICSID) relating to the export restrictions that halted production at the Batu Hijau copper and gold mine.

The decision to discontinue and withdraw arbitration comes after commitments from senior Government officials to open formal negotiations to conclude a Memorandum of Understanding (MoU) with PTNNT upon cessation of the arbitration claim. Signing of a MoU with the Government would be followed by the safe ramp-up of copper concentrate production and exports from Batu Hijau.

PTNNT remains committed to its long-term partnership with Indonesia and seeks to demonstrate its support for the Government’s policies, the Indonesian people, and the ongoing responsible development of the country’s natural resources.

About PTNNT’s Contract of Work and Copper Concentrate Production

The Batu Hijau copper and gold mine was developed under an investment agreement called the Contract of Work (CoW). These Contracts of Work were designed to provide assurance and stability to encourage significant, long-term investments, which is why they were endorsed by Parliament and approved by the President of Indonesia.

The CoW details PTNNT’s obligations and rights – including the obligation to produce and the right to export copper concentrate – while also explicitly establishing all the taxes and duties PTNNT is required to pay. Despite changes in various laws and regulations over the years, the obligations and rights specified in the CoW have continued to govern operation of the mine.

While multiple studies have demonstrated that it is not economically viable for PTNNT to build its own smelter, the company has a Memorandum of Understanding to participate in a process with PT Freeport Indonesia designed to lead towards the development of a smelter. PTNNT also has negotiated and signed conditional concentrate supply agreements with two Indonesian companies that publicly announced plans to build their own copper smelters in the country.

The value added through Batu Hijau’s processing plant improves the quality of the copper ore mined by more than 50 times, capturing roughly 95 percent of the entire value stream in Indonesia. PTNNT also has supported in-country smelting for many years by shipping as much copper concentrate to PT Smelting Gresik – Indonesia’s only copper smelter – as it can take from Batu Hijau.
About PTNNT

PTNNT is a copper and gold mining company operating under a 4th Generation Contract of Work entered into on 2 December 1986. PTNNT is 56% owned by Nusa Tenggara Partnership B.V. (which is owned by Newmont Mining Corporation and Nusa Tenggara Mining Corporation of Japan), with 7% of NTPBV’s stake possibly to be divested to the Government of Indonesia through purchase by an agency of the Ministry of Finance. PT Pukuafu Indah owns 17.8% of PTNNT, PT Multi Daerah Bersaing owns 24% (which in turn is owned by PT Multi Capital and PT Daerah Maju Bersaing, a joint company owned by the province of Nusa Tenggara Barat, and the kabupatens of Sumbawa Barat and Sumbawa) and PT Indonesia Masbaga Investama owns 2.2%.

Since commencing operations in 2000, PTNNT has contributed nearly IDR 90 trillion in taxes, fees, royalties, wages, purchases of domestic goods and services, and dividends paid to the national shareholders. In addition, PTNNT also has implemented corporate social responsibility programs to improve the quality of life and the prosperity of communities around the mine by providing funds in the amount of IDR 50 billion per year, on average. PTNNT employs approximately 4,000 employees and 4,000 contractors.
